Remark: The above data are theoretic, please reference the actual data if there it differs.

The **Advertisement screen printing mesh** is printed on the incredible surface of graphics and patterns. It can be printed on almost any material with different color coverage. The image has good weather resistance; and the possible color series can be determined according to the customer's concept. Printed patterns with exquisite detail, bright colors with high durability and special surfaces, countless products reflect the wide application value and unique advantages of this printing process.

Information:

Material: Polyester, Nylon, Stainless Steel

Specification: 12T -165T

Mesh count: 18-420 mesh

Woven type: Plain woven

Color: White ,Yellow

Width: 115cm,127cm,136cm,145cm,157cm,165cm,183cm,230cm,310cm, etc,customize

Production type: Roll cloth or Sheet customize

The length of roll: 30-80m,can be customized length,customize

Advantage:

- 1.Wear-resistant, easy to clean, long life;
- 2.Good ink leakage;
- 3.The tensile strength is small and the dimensional stability is good;
- 4.Heat resistance and low hygroscopicity;
- 5.Mesh opening is uniform, the standard of mesh count;

Application:

- 1.Label printing, Decorative stickers, Decals, Poste, etc.
